

What to Consider When Referring Your Patients to a Bulk-Bill IVF Clinic on the Gold Coast

Other Low-Cost IVF Clinics

Mild Stimulated Cycle

IVF TREATMENT

Every patient responds differently to the medications. Depending on the number/growth of the follicles, initial egg numbers may be lower than anticipated and therefore, may result in a cancelled cycle.

First Step Fertility

Fully Stimulated Cycle

Your patients could have up to

1-2 EMBRYO TRANSFERS

1 FRESH EMBRYO TRANSFER

0-1 FROZEN EMBRYO TRANSFER

Some discount fertility clinics do not encourage Frozen Embryo Transfers to their patients.

Your patients could have up to

7 EMBRYO TRANSFERS

1 FRESH EMBRYO TRANSFER

4-6 FROZEN EMBRYO TRANSFERS

Your patients can keep their excess embryos frozen for future use.

OPPORTUNITIES TO GET PREGNANT

Some clinics may have a financial selection criteria

OUT-OF-POCKET COSTS

No financial means testing

WITH OTHER LOW-COST IVF CLINICS

To obtain up to

1-2 EMBRYOS

Could cost up to

\$1548

Out-of-pocket (Including ICSI)

First Step Fertility

To obtain up to

9 EMBRYOS

Could cost up to

\$1150

Out-of-pocket (Including ICSI)

Other discount clinics use a mild stimulated cycle which means that the resulting number of eggs is reduced. Therefore, your patients may need more cycles to achieve a pregnancy and this will increase their cost.

PLEASE NOTE: Additional fees may apply depending on the patient's personal circumstances. Prices are subject to change without prior notice. Price information as at December 2017.
