

Bulk-Billed IVF Treatment Process

Your First Appointment

You and your partner will meet with one of our highly trained fertility nurse coordinators to discuss your medical history and arrange for a series of pathology (blood) tests.

Medical Consultation With an IVF Specialist

One of our IVF specialists will review your and your partner's medical histories, test results and perform an ultrasound scan to establish your treatment plan.

Fertility Nurse Coordinator Consultation

At this point, we will discuss your treatment plan with you and your partner and provide you with a detailed education session on the use of injections and medications.

Cost of medication as per PBS co-payment, paid directly to the pharmacy.

\$900 Procedure Centre fee. There may be some additional medication costs relating to the light sedation.

BULK-BILLED

All other medical item numbers, including ICSI, are bulk-billed. Blastocyst and freeze fee are at no additional cost.

Embryo Transfer

If fertilisation and embryo development is successful, a fertility nurse coordinator will contact you to arrange the embryo transfer.

Pregnancy Test

14 days after your embryo transfer, a pregnancy test will be arranged.

1

Make an Appointment

To book an appointment simply call **1800 111 373** or visit our website **firststepfertility.com.au** and complete our Book an Appointment form.

Please note you will require a referral from your GP to First Step Fertility. This referral needs to be in both the patient and partner's name.

2

NO COST FOR THIS APPOINTMENT

Pathology (blood) tests are bulk-billed where possible.

3

BULK-BILLED

4

NO COST FOR THIS APPOINTMENT

5

Begin Treatment

On the first day of your menstrual cycle, you will need to contact one of our fertility nurse coordinators to confirm your medication and treatment starting date.

The fertility nurse coordinator will undertake a follicle count scan during your treatment cycle to monitor your response to the medication.

6

Egg and Sperm Collection

Egg collection takes place while you are lightly sedated, for which you will be required to attend day surgery.

A semen sample will need to be produced on the same day, for which a men's room is available at the clinic.

7

BULK-BILLED

8

BULK-BILLED

Please note additional fees may apply depending on the patient's personal circumstances. Prices are subject to change without prior notice. Price information as at December 2017.
